

**FINAL REPORT ON THE GRANT RECEIVED FROM THE ST. VINCENT DE PAUL, AT ST. MARY'S  
DEDHAM**

**Allakro, June 12, 2025**

Rev. Fr. Wayne Belschner, Parish Priest of St. Mary's Dedham and all our generous donors from the St. Vincent De Paul's Team; receive our greetings from Africa, Cote d'Ivoire, Allakro village.

I trust and hope that you will receive this report in good health by God's grace.

We received from your community a very generous and timely grant of USD \$ 15,369.42, which came to us as an answered prayer. That money have served its purpose well. Despite all oppositions and challenges met during the construction of the agro-pastoral center, the grace of God has prevailed. We were able to complete the project and install the source of life: water at the center. Today this borehole is the point of reunion of all the surrounding villages.

We are aware that the delay in completing the project might have caused you a lot of inconveniences. We will like here to sincerely apologize for that. As we explained to you in our earlier report, things were out of our control.

Thank you so much for your patience and your prayers. As scripture says: All things work together for the good of them that love God (Rom8:28).

May our good Lord bless you and all families of St. Mary's Parish abundantly.

You will find attached to this note, some photos and receipt of the work done and its costs.

Peace,

Fr. Philippe M'boua, SMA

Priest in charge of the Agro-Pastoral Project.
